Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from *Geochemistry of Carbonate Sediments and Sedimentary Carbonate Rocks, Vol. 1: Carbonate Mineralogy, Carbonate Sediments* The invitation extended to Dr. Graf by the United States Geological Survey to prepare the chapter on sedimentary carbonates for their revision of F. W. Clarke's *Data of Geochemistry* has afforded a valuable opportunity for the state and federal geological surveys to cooperate in a basic review of selected topics in carbonate geochemistry. The resultant material is presented in five Illinois State Geological Survey Circulars and subsequently will serve as the basis for a condensed treatment in the revised *Data of Geochemistry*. Part I, published as Circular 297, includes an introduction and sections on carbonate mineralogy and carbonate sediments. Part II, Circular 298, includes the section on sedimentary carbonate rocks. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
