By Edward R. Dougherty, Jaakko Astola

SPIE Press. Paperback. Book Condition: new. BRAND NEW, An Introduction to Nonlinear Image Processing, Edward R. Dougherty, Jaakko Astola, From a strict semantic point of view, nonlinear image processing encompasses all image processing that is not based on linear operators; however, from a practical, evolutionary point of view, the name itself is usually associated with the study of nonlinear filters, mainly the deterministic and nondeterministic analysis and design of logic-based operators. This Tutorial Text volume explores logic-based operators with emphasis on representation, design, and statistical optimization of nonlinear filters.
