

Transactions on Computational Collective Intelligence XI

By -

Springer-Verlag Berlin and Heidelberg GmbH & Co. K. Paperback. Condition: New. 232 pages. Dimensions: 9.1in. x 6.1in. x 0.6in. These transactions publish research in computer-based methods of computational collective intelligence (CCI) and their applications in a wide range of fields such as the semantic web, social networks, and multi-agent systems. TCCI strives to cover new methodological, theoretical and practical aspects of CCI understood as the form of intelligence that emerges from the collaboration and competition of many individuals (artificial and/or natural). The application of multiple computational intelligence technologies, such as fuzzy systems, evolutionary computation, neural systems, consensus theory, etc., aims to support human and other collective intelligence and to create new forms of CCI in natural and/or artificial systems. This eleventh issue contains 9 carefully selected and thoroughly revised contributions. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

This is the greatest pdf I actually have gone through right up until now. It is actually packed with knowledge and wisdom I found out this book from my dad and I advised this publication to find out.
