

DIY Natural Hair Dye: Make All Natural Organic Hair Coloring at Home (Paperback)

By Dina Lanier

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.DIY Natural Hair Dye Make All Natural Organic Hair Coloring At Home When hair color first started to appear in the market, the main active ingredient in them was ammonia, a very potent chemical that changed the fundamentals of the hair frolics, and when I said changed I meant damaged it permanently. Just in last few years, most hair color makers are now offering hair color without the ammonia in them, but does that mean it is all good now? Not really, see, most of them took ammonia out but replaced it with other chemicals like phenylenediamine (PPD), a chemical widely used in the newest type of hair dyes, even those that claim to be natural. It s a popular ingredient because it helps the new color to look natural and to withstand numerous washings without fading. There are some concerns with this ingredient. The main concern with this ingredient is that it is an allergen, and can create difficult skin reactions on the scalp, ears, or neck-wherever the hair dye comes into contact with your skin. According to the National Institute...
