Paperback. Condition: New. Did you know that the root cause of serious chronic diseases such as heart disease, Alzheimers disease, cancer, arthritis, and asthma has been identified as chronic inflammation Although numerous studies have confirmed these findings, few phycsians are aware of or consider the fact that the battle against inflammation is at the forefront of the fight for health and well-being of the global population. Authors Joseph Maroon and Jeffrey Bost have set out to reverse that trend with Fish Oil: The Natural Anti-Inflammatory. Pharmaceujtical companies have spent billions of dollars in an attempt to understand the bio-chemistry of inflammation. Unfortunately, pharmaceutical anit-inflammatories such as Celebrex, Vioxx, and Bextra have been shown to greatly increase the risk of heart attack, stroke, and uncontrollable gastric hemorrhage, with potentially fatal consequences. Is there a safer alternative Absolutiely! The answer lies in the power of the omega-3 fatty acids found in fish oil, undeniably the most under-recognized and also the most petent natural anti-inflammatory available. With compelling arguments and the results of thousands of clinical studies to support them. the uauthors explain in plain and simple terms; How the inflammation process works and how it can evolve into a chroninc condition that is the cause of many diseases; How fatty acids work in the body; Why supplementtion with omega-3 fatty acids can restore the bodys balance and mitigate the effects of inflmmatory factors; and why fish oil is the best source of omega-3 fatty acids, and how to identify good-quality fish oil supplements. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
