

Advanced Algebra (fine institutions of higher education course materials) learned math series

Filesize: 1.43 MB

Reviews

This publication is very gripping and intriguing. It is among the most awesome book we have go through. You can expect to like how the author compose this book.

(Dr. Malika Bechtelar II)

ADVANCED ALGEBRA (FINE INSTITUTIONS OF HIGHER EDUCATION COURSE MATERIALS) LEARNED MATH SERIES

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 277 Publisher: Fudan University Pub. Date :2008-08-01 version 1. This book is a specialty financial institutions of higher learning advanced algebra course materials. a total of 11 book chapters. including: polynomial. determinant. matrix. linear equations. matrix eigenvalue problems. linear spaces and linear transformations. inner product spaces. quadratic. polynomial matrices and Jordan canonical form. bilinear functions. least squares problem. This book contains 10 chapters the basic content of algebra. set up for about 130 hours of mathematics courses; Chapter VI and VIII to the content of relatively independent. administered for the information open 72 hours specialty courses. The materials to ensure the discipline of systematic. logical and scientific premise. combined with the new century on the basis of economic management professionals need mathematical knowledge. in the see on the basis of similar materials at home and abroad. increasing the economy of some basic algebraic mathematical theory and methods. and strive to reflect the characteristics of professional finance and economics. so user-friendly. progressive approach. taking into account development. In order to maintain the relative independence of the material structure. which focused on the last chapter. The material is also equipped with a compilation of courseware with Latex (PDF file). Contents: Chapter I 1.1 polynomial number of polynomial one yuan domain 1.2 1.3 1.4 divides the concept of greatest common divisor factorization theorem of 1.6 1.5 1.7 a polynomial function with real coefficients polynomial with complex coefficients factorization 1.8 rational polynomials * 1.9 Multivariate Polynomial * 1.10 Exercises a symmetric polynomial determinant Chapter 2.1 2.2 Introduction 2.3n arranged in reverse order with the definition of 2.4 determinant calculate the determinant of the nature and rules of 2.6 Laplace 2.5 Cramer determinant multiplication...
